

### 1. Registration & Eligibility Rules

#### 1.1 Prerequisites & Group Formation

- **Credit Hour Threshold:** Students must have successfully completed at least 90 credit hours to register for FYP-I.
- **Group Size:** Projects are conducted in groups of 2 to 4 students. Single-student projects are not permitted except under special approval from the FYP Committee.
- **Supervisor Allocation:** Each group must secure agreement from a faculty supervisor and submit the Proposal Consent Form before the deadline.

### 2. FYP Phases & Evaluation Breakdown

#### 2.1 Project Milestones (FYP-I & FYP-II)

| Phase  | Milestone / Deliverable                      | Target Timeline        | Weightage |
|--------|----------------------------------------------|------------------------|-----------|
| FYP-I  | Proposal Defense & Requirements Analysis     | Week 4 (7th Semester)  | 20%       |
| FYP-I  | System Architecture & Mid-Term Evaluation    | Week 10 (7th Semester) | 30%       |
| FYP-I  | Final FYP-I Documentation & Evaluation       | Week 16 (7th Semester) | 50%       |
| FYP-II | Implementation & Progress Review             | Week 8 (8th Semester)  | 30%       |
| FYP-II | Final Defense, Code Audit & Hardbound Thesis | Week 16 (8th Semester) | 70%       |

#### 2.2 Grading Rubric Criteria

- **Technical Complexity & Innovation:** Architectural soundness, choice of technology, and problem-solving approach.
- **Working Prototype & Implementation:** Quality of code, database integrity, user interface, and system execution.
- **Documentation & Formatting:** Strict adherence to FCIT IEEE thesis template, clear diagrammatic representations (UML), and references.
- **Presentation & Q/A Performance:** Individual grasp of the system, team coordination, and response to panel queries.
